Tablas

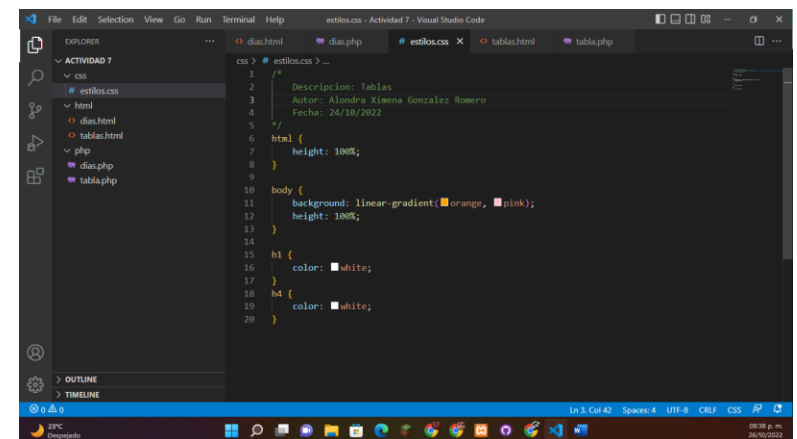

This screenshot shows the Visual Studio Code editor with the file 'tablas.html' open. The Explorer sidebar on the left shows a project structure for 'ACTIVIDAD 7' containing files like 'estilos.css', 'html', 'dias.html', 'tablas.html', 'php', 'dias.php', and 'tabla.php'. The main editor area displays the HTML code for 'tablas.html', which includes a description, author, date, and a form to generate a table. The form has two input fields for 'region' and 'columna', and a 'Generar' button. The code is as follows:

```
1 <!--
2 Description: tablas
3 Autor: Alondra Ximena Gonzalez Romero
4 Fecha: 24/10/2022
5 -->
6 <!DOCTYPE html>
7 <html lang="es">
8 <head>
9 <meta charset="UTF-8">
10 <meta http-equiv="X-UA-Compatible" content="IE=edge">
11 <title>Generador Tabla</title>
12 <link rel="stylesheet" href="css/estilos.css">
13 </head>
14 <body>
15 <form action="php/tabla.php" method="get">
16 <div>
17 <h1>Generador de tablas</h1>
18 <br>
19 <br>
20 <br>
21 <br>
22 <br>
23 <input type="number" name="region" id="region" min="0" max="120">
24 Columnas:
25 <input type="number" name="columna" id="columna" min="0" max="120">
26 </div>
27 <br>
28 <br>
29 <input type="submit" value="Generar">
30 </div>
31 </body>
32 </html>
```

This screenshot shows the Visual Studio Code editor with the file 'tabla.php' open. The Explorer sidebar on the left shows the same project structure as the previous screenshot. The main editor area displays the PHP code for 'tabla.php', which uses the \$_GET superglobal to retrieve the values of 'region' and 'columna' from the form and generates an HTML table dynamically. The code is as follows:

```
1 <!--
2 Description: Generador de tablas
3 Autor: Alondra Ximena Gonzalez Romero
4 Fecha: 24/10/2022
5 -->
6 <?php
7 if (isset($_GET['region']) && isset($_GET['columna']))
8 echo "<table border='1'>";
9 for($fren=1; $fren <= $_GET['region']; $fren++){
10 echo "<tr>";
11 for($col=1; $col <= $_GET['columna']; $col++){
12 echo "<td>";
13 echo "<div>";
14 echo "<div>";
15 echo "</div>";
16 echo "</td>";
17 }
18 echo "</tr>";
19 echo "</table>";
20 ?>
```

This screenshot shows the Visual Studio Code editor with the file 'estilos.css' open. The Explorer sidebar on the left shows the same project structure. The main editor area displays the CSS code for 'estilos.css', which defines the styling for the table generator. The code is as follows:

```
1 /*
2 Description: Tablas
3 Autor: Alondra Ximena Gonzalez Romero
4 Fecha: 24/10/2022
5 */
6 html {
7 height: 100%;
8 }
9
10 body {
11 background: linear-gradient(orange, pink);
12 height: 100%;
13 }
14
15 h1 {
16 color: white;
17 }
18 h4 {
19 color: white;
20 }
```
